### How does it work?

This 2 day programme will be both experiential and interactive. We will use modern techniques to recover ancient mysteries.

### Who will be leading the Aether Introductory Weekend?

This weekend is led by David Shephard, DES & Certified Master Trainer of NLP. David has been training and presenting esoteric trainings for over 15 years, and has a vast experience in the field. He will share his insights with you during the weekend.

To find out more about David visit [www.davidshephard.com](http://www.davidshephard.com)

### What if I attend?

Just suppose for a moment that you fully understand how the universe works and can utilise these learnings to make it work for you. Just take a moment to consider what it would be like to understand and explain the things that happen on an unseen level. Imagine being able to pull things out of the Aether that previously you would have thought impossible.
